

Due to my station being in mid-renovation I was unable to get a base radio operational on 1457.585 Simplex until 0923. Several other Mobile stations were monitoring here during this time and it appears that no inter-county traffic was missed. Note that some passed traffic may not have been logged here as certain stations were unreadable this location and logging priority was given to the Main Net on 146.610. Also note time discrepancy possible as noted on 146.610 log

0923 Announced ARES Net now opening w/ KG4FQG Phil Greenville NCS

0927 WD4DYH to AJ4IK advised Red Cross was setting up station for 147.585 Ops

0931 AJ4IK (traffic not logged)
